

## TC Handling Systems

# Anode Handling

Datasheet

010-2010

### Technical Data:

Range: 450–5000 mm

Width: 400–800 mm

Capacity: 1.2–10 tons

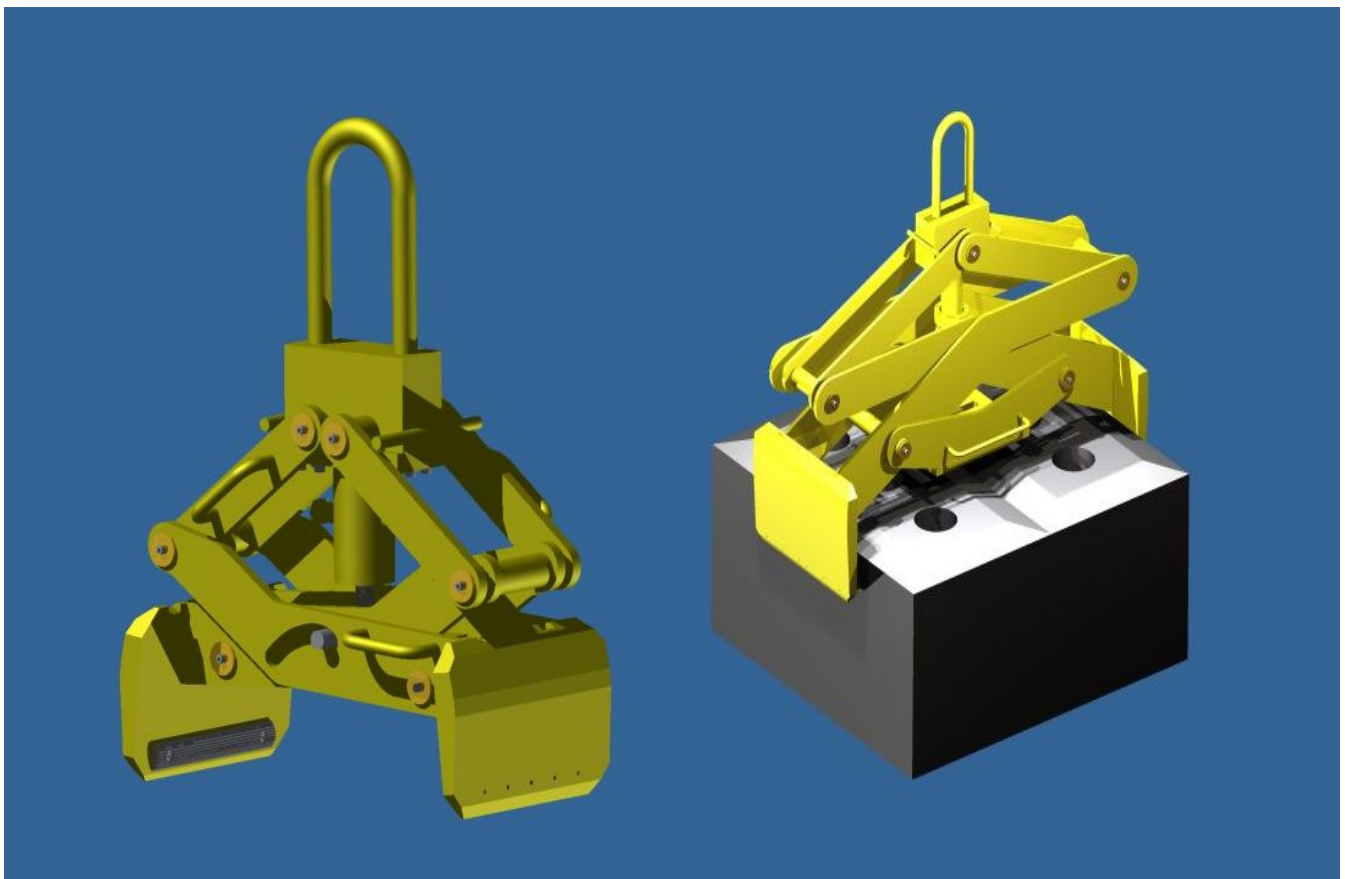

Weight: 250–5000 kg

TC has a number of alternative systems for anode handling. This is for single anode, double anode, two anodes in height or a complete row of anodes. The systems will be adapted to anode size, capacity and customer requirements.

The systems are mechanically or hydraulic operated. Mechanical tongs has all automatic locking devices giving automatic operation.

### Advantages:

- Heavy duty design
- Flexible systems
- Reliable in operation - low maintenance.
- Compact and easy to handle
