

TC Handling Systems

Flue Wall Handling

Datasheet

012-2010

Technical Data:

Range: 250–533 mm

Width: Up to 5000 mm

Capacity: Up to 20 tons

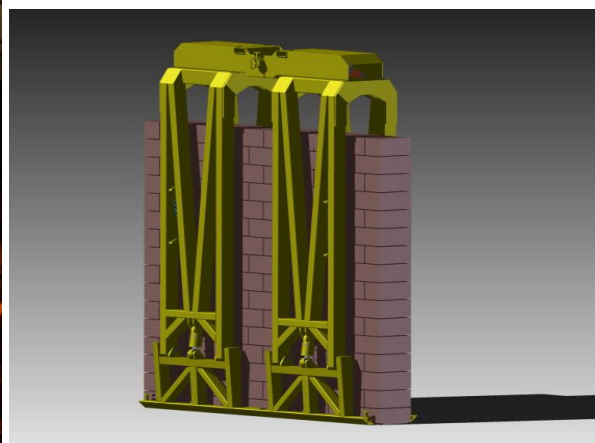

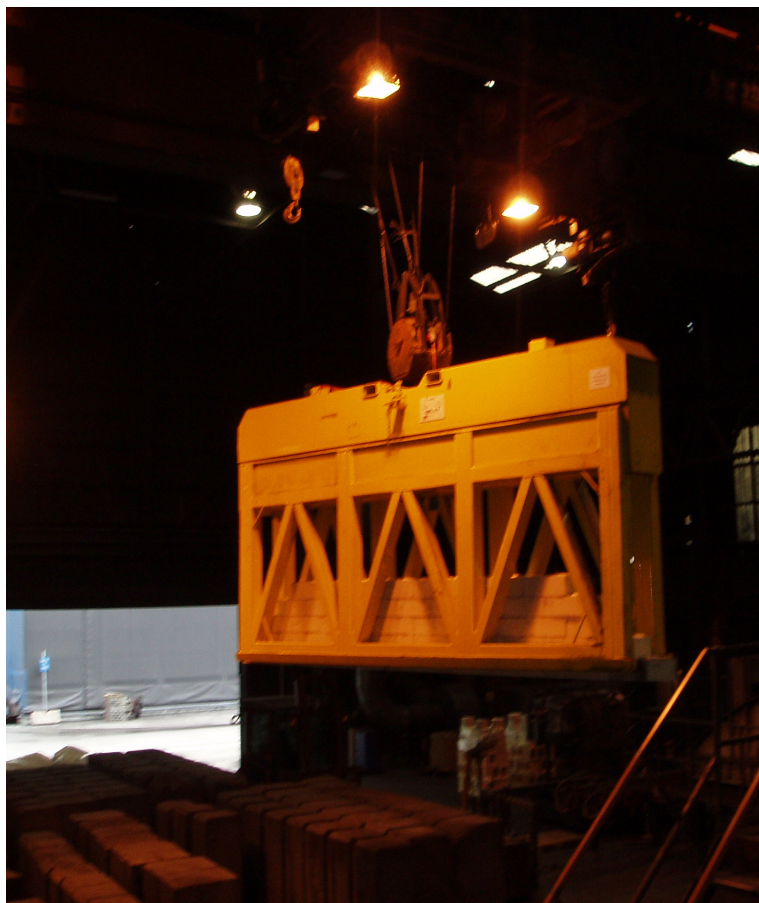

Weight: 3000–6000 kg

TC supplies special designed systems for demolishing and rebuilding of flue walls. Flue walls may be handled as sections or complete units. Depending upon wall design adaptations the starter block may have to be done.

The systems are mechanically or hydraulic operated. All systems are based upon TC's well reputed tong design with a wide range of built in safety options.

Advantages:

- Heavy duty design
- Flexible systems
- Reliable in operation - low maintenance.
- Safe and efficient handling
