

TC Handling Systems

Stacker System

Datasheet

021-2010

Technical Data:

Cut length: 425–8000 mm

Diameter: 60–458 mm

Capacity: Up to 250 pcs./h

Weight: 5000 kg

Advantages:

- Heavy duty design
- Huge flexibility
- Reliable in operation
- Modern and well designed
- Easy operation and maintenance

TC Engineering AS is a supplier of complete cutting and handling systems for aluminium extrusion billets. Our stacker system is extremely flexible with regard to diameter and length variations.

The stacker system handles single and double packages, short and long billets and a huge variation in diameters. Servo operation gives a very clean and speedy system with low maintenance.
