

TC Handling Systems

Strapper System

Datasheet

022-2010

Technical Data:

Range: 425–8000 mm

Height: Up to 1250 mm

Capacity: 30–40 sec./str.

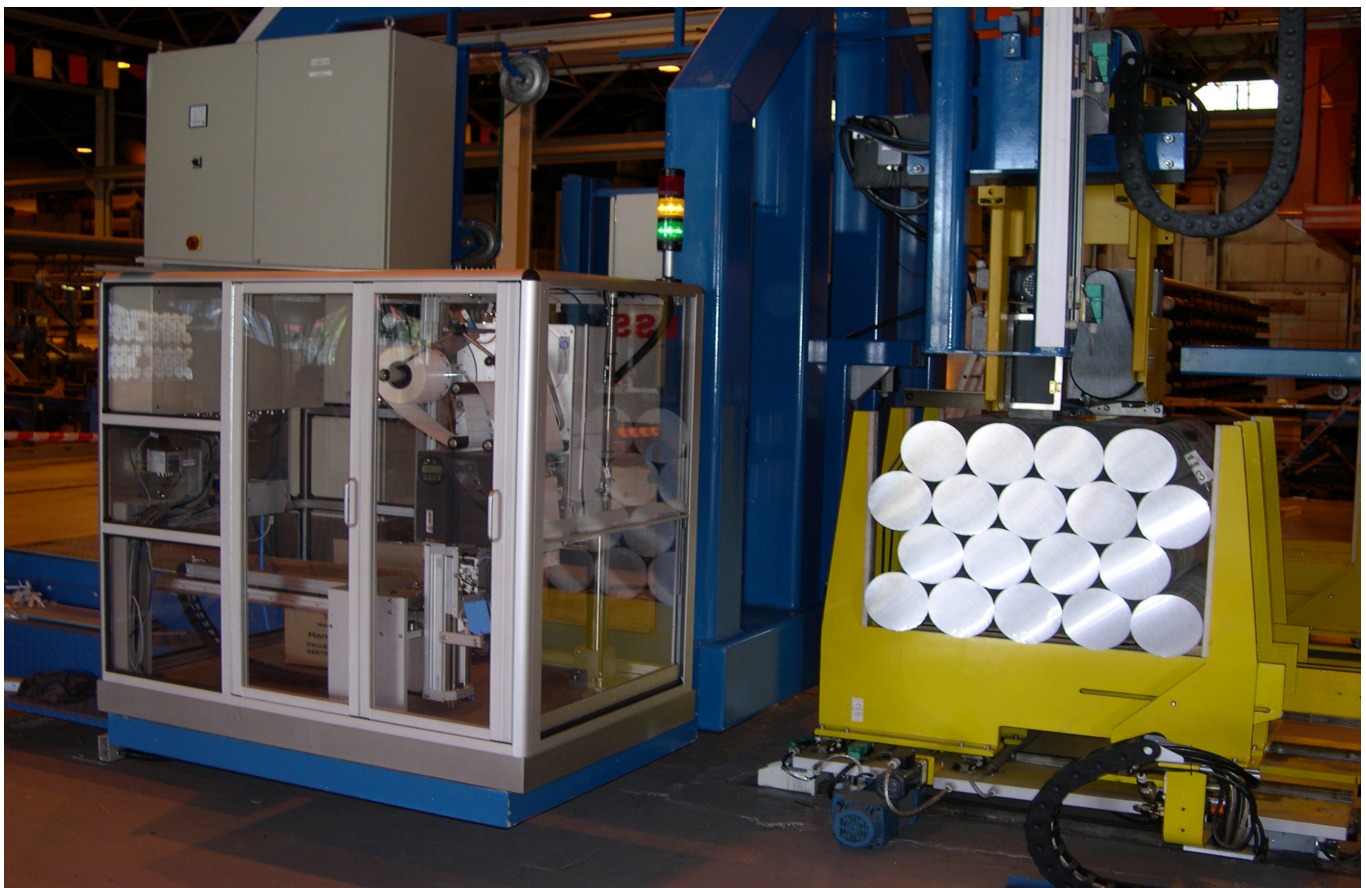

Weight: 4000 kg

TC Engineering AS is a supplier of complete cutting and handling systems for aluminium extrusion billets. Our automatic strapping system is extremely flexible with regard to package shape and size.

The strapper head and spacer feeding is electric operated. This gives accurate and reliable operation. Strapping head from Signode with polyester straps.

Advantages:

- Heavy duty design
- Huge flexibility
- Reliable in operation
- Modern and well designed
- High speed and accuracy
